Now is the time that every one

the system is thoroughly overhauled-there is a general housecleaning going on within. The impurities that have been accumulating for a year must be gotten rid of and the system renovated and prepared for the siege of summer. Unless Nature is assisted in this task, the strain on the system is too severe, and a breakdown is the result. Some people neglect to supply this assistance, and as a result they are overcome by an enervating, depressed feeling, their energies relax, appetite fails, and they are totally disabled for a season. Everybody just now needs a tonic, and Swift's Specific

S.S.S.For. Blood is logically the best tonic on the market. The general health needs building up, hence a tonic is needed that is entirely harmless. S. S. S. is purely vegetable, and is the only blood remedy that is guaranteed to contain no potash, mercury, or other harmful mineral ingredient. It is Nature's remedy, being made from roots and herbs gathered from Nature's great storehouse. It thoroughly cleanses the blood of all impurities, tones up the general health, renews the appetite and imparts new life and vigor to the entire system. Dangerous typhoid fever and other prevalent summer diseases seldom attack a person whose system is thoroughly

cleansed and toned up with S. S. S. in the spring. Get S. S. S. and be pre-pared. Sold by all

The Saviour's Blood Was Shed for th World, and His Life Was Sacrificed That We Might Live-Dr. Talmage's

Dr. Talmage's text Sunday was Heb. "Without shedding of blood John G. Whittier, the last of the

great school of American poets that made the last quarter of this century brilliant, asked me in the White mou tains one morning after prayers, in which I had given out Cowper's famous which I had given out Cowper's famous bymn about "The Fountain Filled With Blood," "Do you really believe there is a literal application of the blood of Christ to the soul?" My negative reply then is my negative reply The Bible statement agrees with all physicians, and all physiologists, and all scientists, in saying that the blood is life, and in the Christian religion it means simply that Christ life was given for our life. Hence that all this talk of men who say the Bible story of blood is disgusting, and they don't want what they call the "slaugh-ter house religion," only shows their incapacity or unwillingness to look through the figure of speech toward the thing signified. The blood that, on the darkest Friday the world ever saw, oozed, or trickled, or poured from the brow, and the side, and the hands, and the feet of the Illustrious Sufferer, back of Jerusalem, in a few hours coagulated and dried up, and coagulated and dried up, and forever disappeared; and if man had ed on the application of the literal blood of Christ, there would not have

In order to understand this red word of my text, we only have to exercise we do in everything else. Pang fo pang, hunger for hunger, fatigue for fatione, tear for tear, blood for blood life for life, we see every day illustrated. The act of substitution is no nov elty, although I hear men talk as though the idea of Christ's suffering substituted for our suffering were something abnormal, something dis tressingly odd, something wildly eccentric, a solitary episode in the world's history; when I could take you out into this city and before sundown point to you 500 cases of substitution and voluntary suffering of one in behalf of At 2 o'clock to-morrow afternoon go

They are hasten-ing rapidly toward their decease. They have gone through crisis in business that shattered their nervous system and pulled on the brain. They have a shortness of breath, and a pain in the back of the head, and at night an insomnia that alarms them. Why are they drudging at business early and late? For fun? No; it would be difficult to extract any amusement out of that exhaustion. Because they are avarieious? In many cases, no. Because their own personal expenses are lavish? No; a few hundred dollars would meet all their wants. The simple fact is, the man is enduring al that fatigue and exasperation, and wear and tear, to keep his home prosperous. There is an invisible line reaching from that store, from that bank, from that shop, from that scaf-folding, to a quiet scene a few blocks away, and there is the secret of that business endurance. He is simply the champion of a homestead, for which he wins bread, and wardrobe, and e lucation, and prosperity, and in such battle 10,000 men fall. there you will find a dish light, because it is the household custom to keep a subdued light burning; but most of the houses from base to top are as dark as though uninhabited. A merciful God has sent forth the archangel of sleep, and he puts his wings over the city. mother has sat up with that sufferer. She has to the last point obeyed the physician's prescription, not giving a drop too much or too little, or a moment too soon or too late. She is very anxious, for she has buried three chil dren with the same disease, and she prays and weeps, each prayer and sob ending with a kiss of the pale cheek. By dint of kindness she gets the little one through the ordeal. After it is all over, the mother is taken down Brain or nervous fever sets in, and one day she leaves the convales cent child with a mother's bless ing, and goes up to join the three departed ones in the kingdom of Heaven. Life for life. Substitution! The fact is that there are an uncounted number of mothers who, after they have navigated a large family of chil dren through all the diseases of infancy, and got them fairly started up the flowering slope of boyhood and girl-hood, have only strength enough left to die. They fade away. Some call it consumption; some call it nervous pros-tration; some call it intermittent or malarial indisposition; but I call it martyrdom of the domestic circle.

But she goes right on, looking carefully after his apparel, remembering his every birthday with some memento, and when he is brought home worn out with dissipation, nurses him till he gets well and starts nurses him till he gets well and starts him again, and hopes, and expects, and prays, and counsels, and suffers, un-til her strength gives out and she fails. of men to do battle. All the poetry of war soon vanished and left them nothing but the terrible prose. They waded knee deep in mud. They slept in snow banks. They marched till their ent feet tracked the earth. They were swindled out of their honest rations and lived on meat not fit for a dog. They had jaws fractured, and eyes ex tinguished, and limbs shot away. Thousands of them eried for water as they lay on the field the night after the battle and got it not. They were homesick, and received no message from their loved ones. They died in barns, in bushes, in ditches, the buzzards of the summer heat the only attendants on their obsequies. one but the infinite God who knoweth everything, knows the ten thousandth part of the length, and breadth, and northern and southern Why did these fathers leave their children and go to the front, why did these young in n, postponing the mar-riage day, start into the probabilities of never coming back? But we must not go so far. What is

that monument in the cemetery? It is

to the doctors who fell in the southern epidemies. Why go? Were there not enough sick to be attended in these northern intitudes? Oh, ves; but the octor puts a few medical books in his valise, and some vials of medicine, and caves his patients here in the hands of other physicians, and takes the rail train. Before he gets to the infected regions he passes crowded rail trains, regular and extra, taking the flying and affrighted populations. He arrives in a city over which a great horror is brooding. He go s from couch to couch, feeling the pulse and studying symptoms, and prescribing day after day night after night until a fellow physician says: "Doctor, you had better go home and rest; you look misera-ble." But he can not rest while But he can not rest while many are suffering. On and on, until in which he talks of home, and then ises and says he must go and look after those patients. In the legal profession I see the sam principle of self-sacrifice. William Freeman, a pauperized and idiotic Negro, was at Auburn, N. Y., on trial for murder. He had slain the wrath of the community could be kept off him only by armed constables. Who would volunteer to be his coun sel? No attorney wanted to sacrific his popularity by such an ungrateful lawyer with feeble voice, that could hardly be heard outside the bar, pale and thin and awkward. It was William H. Seward, who saw that the prisoner was idiotic and irresponsible, and ought to be put in an rather than put to death, the heroic ounsel uttering these beautiful words

Nothing sublimer was ever seen in an American court room than William II. Seward, with out reward, standing between the furious populace and the loathsome imbecile. Substitution.

In the realm of the fine arts the was as remarkable an instance. A brilliant but hypercritical painter, Joseph William Turner, was met by a volley of abuse from all the art galleries of Europe. His paintings, which have since won the applause of all civilized nations, "The Fifth Plague of Egypt," "Fisherman on a Lee Shore in Squally Weather," "Calais Pier," "The Sun Rising Through Mist," and "Dido Building Carthage," were then targets for critics to shoot at. In defense of this outrageously abused man, a young author of 31 years, just one year out of college, came forth with his pen, and wrote the ablest an famous essay on art that the world ever saw, or ever will see—John Rus-kin's "Modern Painters." For 17 years this author fought the battles of the maltreated artist, and after, in poverty and brokenheartedness, the paint er had died, and the public tried to un do their cruelties toward him by ing him a big funeral and burial in St. Paul's cathedral, his o'd-time friend took out of a tin box 19,000 pieces of paper containing drawings by the old painter, and through many weary and uncompensated months assorted and arranged them for public observation. Southern Mutual Investment Co.

OF LEXINGTON, KY.

OUR PLAN.

Our plan is a new application of an old principle, and is based upon the actual experience of successful life insurance companies, covering a period of over 200 years. The same principles govern both, only-

WE pay while you LIVE.

THEY pay when you DIE. WE offer the INVESTMENT features.

THEY protect in case of DEATH.

With them, death is the moving factor, causing the payment of the policy; with us, a definite and fixed mathemalical rule, in lieu of death. matures the policy.

INSURANCE IS A LAW OF AVERAGE.

They figure on so many men out of a thousand dying-we figure on so many policies, They kill the man-we kill the policy.

There is no reason why a man should die to reap the benfits of his investment.

We return an average of \$2.30 for every dollar paid us, and yet we assume an obligation less than one-third as great as has been assumed and paid for years by the leading life insurance companies of America.

OUR MISSION.

Only about twenty (20) per cent. of the people are insurable. July the sound and healthy, who least need it's advantages, can obtain life insurance. Why should there not be a means provided whereby the other eighty (80) per cent of the population can carry an investment the same as the favored few who can get life insurance? Our mission is to open the door to the entire population to enjoy the same or greater benefits for an equal or less expenditure, considering the advantage to be derived, and that those advantages may be enjoyed during life by the one making the investment.

NOTHING JUCCEEDS LIKE SUCCESS.

That our plan is popular and based upon sound business principles, is evidenced by our large and increasing membership, as shown by our remarkable 'Exhibit of Growth, See literature.

We court the clysest scrutiny and most thoroug investigation. No statement made that cannot be verified by actual results.

Others Make Money. Why Not You?

The endorsement given this Company by the investment of bankers, law ers, merchants, ministers, doctors, railroad men, mechanics-in fact, men of business sagacity in every vocation of life—is an evidence of the soundness of
